Project Objectives

Team ID	PNT2022TMID13268
Project Name	Smart Lender Applicant Credibility Prediction for Loan Approval

Project Objectives:

Write what are all the technical aspects that students would get if they complete this project.

1.   Knowledge of Machine Learning Algorithms → **Completed**

2.   Knowledge of Python Language with Machine Learning → **Completed**

3.   You'll be able to understand the problem to classify if it is a regression or a classification kind of problem. → **Completed**

4.   You will be able to know how to pre-process/clean the data using different data pre-processing techniques. → **Completed**

5.   Applying different algorithms according to the dataset and based on visualization. → **Completed**

6.   Real-Time Analysis of Project → **Completed**

7.   Building ease of User Interface (UI) → **Completed**

8.   Navigation of ideas towards other projects(creativeness) → **Completed**

9.   Knowledge of building ML models. → **Completed**

10.   How to build web applications using the Flask framework. → **Completed**
